SUPPLYSCOPE / DELIVERY ANALYTICS

Executive overview

Understand delays. Compare reliability. Focus the next investigation.

Active filters: basis=purchase

- Purchase-date cohorts · inclusive dates · source-local time

Orders in cohort	On-time delivery	Late deliveries	P90 delivery time
99,252	93.2%	6,532	23.1 days
Accepted orders; each order counted once	89,750 / 96,282 eligible delivered orders; promise is end of day	6.8% of eligible deliveries	90% of observed delivered durations are at or below this value

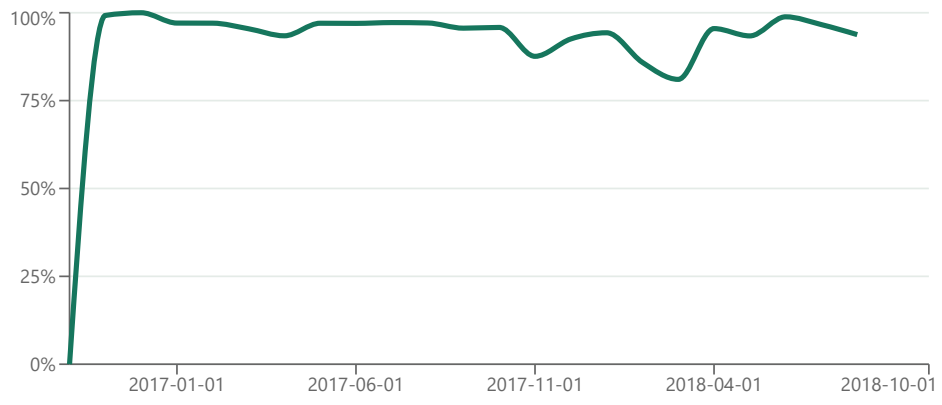

THE OPERATIONAL PICTURE

6,532 delivered orders missed their promise.

8 delivered orders are unscorable; 625 cancellations represent 0.6% of this cohort.

Reliability over time

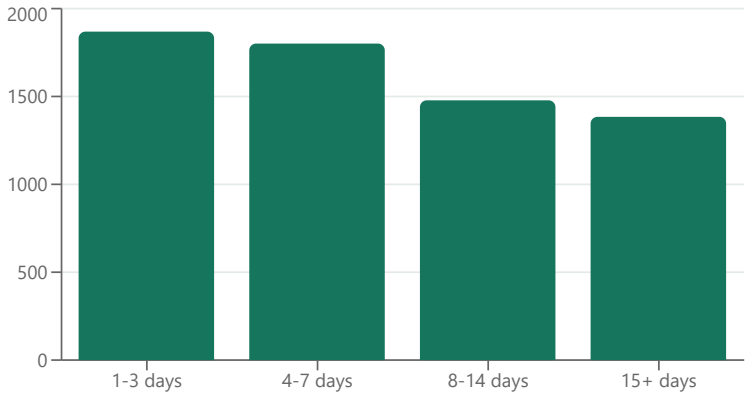

On-time rate · purchase month

How late are late deliveries?

Distribution

Calendar days after the promised date

Order status & handoff timing

All accepted orders in the selected cohort. Stage medians use available timestamps and do not add to the total median.

Delivered	Shipped	Canceled	Unavailable	Invoiced	Processing	Created	Approved
96,290	1,106	625	609	314	301	5	2

Median purchase-to-dispatch: 2.2 days | median post-dispatch: 7.1 days | freight charged: R$ 22.82 per known order (98,477 orders).

Investigation priorities

Above-baseline destinations · ≥30 eligible orders · ranked by total late days

01 **RJ** 1,495 late / 12,330 eligible

12.1% late vs 6.8% cohort baseline · 20,216 total late days.

Review dispatch handoffs and promise calibration for this destination; validate within seller and category before a pilot.

▶ Owner, follow-up & limitation

02 **BA** 395 late / 3,252 eligible

12.1% late vs 6.8% cohort baseline · 4,755 total late days.

Review dispatch handoffs and promise calibration for this destination; validate within seller and category before a pilot.

▶ Owner, follow-up & limitation

03 **CE** 176 late / 1,278 eligible

13.8% late vs 6.8% cohort baseline · 2,672 total late days.

Review dispatch handoffs and promise calibration for this destination; validate within seller and category before a pilot.

▶ Owner, follow-up & limitation

04 **SC** 291 late / 3,534 eligible

8.2% late vs 6.8% cohort baseline · 2,419 total late days.

Review dispatch handoffs and promise calibration for this destination; validate within seller and category before a pilot.

▶ Owner, follow-up & limitation

05 **ES** 214 late / 1,989 eligible

10.8% late vs 6.8% cohort baseline · 2,418 total late days.

Review dispatch handoffs and promise calibration for this destination; validate within seller and category before a pilot.

▶ Owner, follow-up & limitation

06 **PE** 153 late / 1,592 eligible

9.6% late vs 6.8% cohort baseline · 1,831 total late days.

Review dispatch handoffs and promise calibration for this destination; validate within seller and category before a pilot.

▶ Owner, follow-up & limitation

07 **PA** 106 late / 945 eligible

11.2% late vs 6.8% cohort baseline · 1,359 total late days.

Review dispatch handoffs and promise calibration for this destination; validate within seller and category before a pilot.

▶ Owner, follow-up & limitation

08 **MA** 125 late / 714 eligible

17.5% late vs 6.8% cohort baseline · 1,313 total late days.

Review dispatch handoffs and promise calibration for this destination; validate within seller and category before a pilot.

▶ Owner, follow-up & limitation
